

# Bentzon Brotherhood

- Super-groovy power jazz funk!

## The groove is back!!

What is one of the most intense and groovy musical innovations of the 20th century?

That's right! – jazz funk, as expressed by e.g. Herbie Hancock Headhunters and Brecker Brothers.

Copenhagen-based bandleader, keyboardist, composer Nikolaj Bentzon and his superb "Bentzon Brotherhood" has produced a string of 6 CD-releases that e.g. feature three Hancock Headhunters-alumni: Bassist Paul Jackson, drummer Mike Clark, and guitarist Wah Wah Watson (remember "Herbie Hancock Headhunters" ('73), "Thrust" ('74), "Man-Child" ('75) ect.?)

Super groovy power jazz funk from Bentzon's experienced group of top Scandinavian musicians + three of the fathers of funk.

Take the Headhunters groove template and bring it to the boil.....
